 - Persons with a medical condition, mental health condition, or disability that prevents wearing a face covering. This includes, but is not limited to, persons with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face covering without assistance.
- Businesses shall deny entry to and refuse to serve members of the public who refuse to wear face coverings, unless a medical exemption applies or the individual is a child under the age of five. A business shall neither require the individual to produce medical documentation verifying a medical condition or disability, nor ask about the nature of a medical condition or disability. Businesses are encouraged to offer members of the public alternatives to in-person shopping such as curbside pickup and delivery.
- ii. Playgrounds, Spraygrounds, and similar spaces with shared play equipment are permitted to open, provided that adequate social distancing and mask wearing provisions are observed as is possible. Further, it is highly recommended those utilizing these types of spaces bring sanitization resources while using said spaces. Failure of the public to adequately social distance and/or wear masks as is possible may result in the issuance of citations and/or the space being closed to the public.
- iii. Adult and Youth Sporting Tournaments are permitted to take place, provided that adequate social distancing and mask wearing provisions are observed as is possible. Further, it is highly recommended those participating in sporting tournaments bring sanitization resources while engaging in these sporting events. - iv. Unless otherwise noted in the attached document, or in this order, both essential and non-essential businesses that are frequented by the public can open provided they limit the number of individuals (staff and customers) in the building or room to 50 percent of the lowest occupancy load on the certificate of occupancy of the room or facility (whichever is lower) in which the gathering is occurring. This is only permissible as long as adequate social distancing (six feet) can be maintained. If social distancing cannot be maintained due to facility layout, the occupancy limit should be reduced. Proper PPE must be utilized.
- v. Gatherings: including, but not limited to, non-essential business activities, such as: religious services, weddings, funerals, lectures, meetings, parades, fairs, festivals, and performances may resume subject to the following requirements, but must adhere to the guidance found in the Recovery Plan:

 - 2. Outdoor venues: Occupancy shall not exceed one hundred (100) people. Employees will not be considered attendees, for the purposes of calculating capacity.
- vi. All essential and non-essential businesses that are open to the general public are required to complete and post a Social Distancing Protocol that is easily accessible to the staff and customers.

b) Recommendations
