Board of Trustees
Jackson County, Missouri
Revised Pension Plan

We are pleased to transmit to you the 2018 Comprehensive Annual Financial Report of the Jackson County, Missouri Revised Pension Plan for the fiscal year ended June 30, 2018. State law requires that divisions of all local governments publish, within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. The objective of this report is to inform the members of the Board of Trustees of the Jackson County, Missouri Revised Pension Plan of the financial condition of the Plan.

Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Plan. The Board of Trustees has delegated management to the Finance Department of Jackson County, Missouri (The County). We believe that the data, as presented, is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial position and results of operations of the Plan as measured by the financial activity of its fund, and that all disclosures necessary to enable the reader to gain the maximum understanding of the Plan's financial affairs have been included.

The financial statements of the Plan have been audited by the independent auditors of RSM US LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Plan for the fiscal year ended June 30, 2018, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Plan's financial statements for the year ended June 30, 2018, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Governmental accounting standards require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A).

This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Jackson County, Missouri Revised Pension Plan's MD&A can be found immediately following the report of the independent auditors. The accuracy and completeness of the data contained in this report is the sole responsibility of the management of the Plan.

Profile of the Plan

The Jackson County, Missouri Revised Pension Plan (Plan) was created and established by ordinance of the Jackson County Legislature in 1967. The governance of the Plan was reorganized with an Ordinance dated February 17, 2009. This Ordinance created an independent Board of Trustees which holds the Plan assets in trust separate from the assets of Jackson County. The purpose of the Plan is to provide for the retirement of employees who become members of the Plan, to provide benefits for totally and permanently disabled members, and death benefits for spouses and beneficiaries of deceased members subject to Plan provisions.

At year-end (June 30, 2018), the Plan had 1,246 active members and a total of 1,350 members or their beneficiaries currently receiving benefits. The Plan covers those employees of Jackson County, Missouri, the Little Blue Valley Sewer District, the Jackson County Board of Election Commissioners, the Kansas City Board of Election Commissioners, the Jackson County Law Library, Inc., the Jackson County Sports Complex Authority, and the Eastern Jackson County Multi-Jurisdictional Anti-Drug Task Force.

Local Economy

Jackson County, Missouri strives to create and maintain an attractive environment for the local economy to grow, businesses to thrive and people to live.

Progress on the Rock Island Railroad Corridor has continued to grow. The County has completed 100% of the Plans, Specifications, and Estimate for Phase 1 of the Rock Island Shared Use Path as well as right-of-way stage plans for Phase 2. The final bidding has also been awarded for the construction contract to finish building the path. A groundbreaking ceremony was held marking the start of construction. We expect to see much more progress in the coming year.

An auto parts supplier announced it will build a new manufacturing plant in Blue Springs, MO in 2018. Faurecia, who will build door and instrument panels, will create 300 new jobs for the Jackson County, MO area. Faurecia estimates the total investment in the 250,000-square-foot plant will exceed \$60 million. Jackson County also participated in drafting a proposal for the opportunity to be chosen as the selected site for the new Amazon HQ2.

For projects large and small, Jackson County has worked to refine its mapping system specific to economic development incentives that are currently in place ([http://maps.jacksongov.org/\(incentiveviewer/\)](http://maps.jacksongov.org/(incentiveviewer/))). In seeking to provide a user friendly experience, the County welcomes observations on how this system can best serve the community.

Long-Term Financial Planning

The investment portfolio of the Plan is a major source of funds to the Plan. Net investment income from both long-term and short-term investments amounted to a gain of \$22.6 million, representing 69.5% of total additions. This gain was primarily due to appreciation of \$12.6 million, \$2.3 million and \$2.2 million in the fair value of corporate stocks, the International Equity Fund, and the S&P 500 Index Fund, respectively. Employer and employee contributions totaling \$9.9 million represent 30.5% of total additions. Investment gains, interest, dividends, and contributions exceeded investment expense by \$32.5 million. The supporting schedules reflect the changes in the portfolio during the year. The total yield on investments was 8.1%, down from the 2017 total

yield of 11.8%. The Plan's investments are managed by independent investment managers and are held by the current custodian, BMO Harris Bank N.A. (BMO), except for the commingled investments which are held by the custodian chosen by such commingled fund, and maintained, for reporting purposes only, at BMO.

Employer contributions are subject to annual appropriation by the employers participating in the Plan. Annual contributions consist of the service cost and a payment toward funding past service liability. The ten year history of employer contributions as a percent of the actuarially determined contribution level ranged from a high of 110.2% in the fiscal year ended 2013 to a low of 87.2% in 2011. Employer contributions during this reporting period were 104.8% of the actuarially determined contribution level.

Relevant Financial Policies

Jackson County is responsible for establishing and maintaining internal control designed to ensure the protection of assets from loss, theft, or misuses, and to ensure the accounting information generated is adequate to prepare financial statements in conformity with accounting principles generally accepted in the United States of America. As a Pension Trust Fund of Jackson County, Missouri, the Revised Pension Plan is subject to this internal control. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk. In addition, the County and the Plan are subject to annual audits.

This report is prepared in accordance with the principles of governmental accounting and reporting pronounced by the Governmental Accounting Standards Board (GASB). The accrual basis of accounting is used to record assets, liabilities, revenues and expenses. Revenue recognition occurs when earned without regard to the date of collection. Expense recognition occurs when the corresponding liabilities are incurred, regardless of payment date.

The Pension Plan Board of Trustees has set out the following investment objectives and policy guidelines:

Investment Objectives:

1. To earn a rate of return after all expenses that equals or exceeds the actuarial investment rate assumption of 6.75%, with a total return of at least GNP Deflator plus 4.5%.
2. A relative return objective to outperform a policy index comprised of the following:

17.5%	Standard & Poor's 500 Stock Index	10%	Russell 2500 Index
20%	MSCI ACWI ex U.S. Index	10%	MSCI ACWI
32.5%	Bloomberg Barclays Capital Aggregate Index	10%	NFI ODCE (net) Index
3. A relative Total Plan return objective of median or greater in a manager universe with comparable equity allocations.

4. Each manager's individual guidelines shall establish separate performance objectives consistent with this total performance objective. The expectation for each asset class is to rank in the upper half of its peer universe (except for Stabilized Fixed Income, Long/Short Equity, and Real Estate) and meet or exceed its applicable benchmark as listed below. Long/Short Equity should also approximate the total return of the MSCI ACWI Index.

<u>Asset Class</u>	<u>Performance Benchmark</u>
Stabilized Fixed Income	90 Day T-Bill
Intermediate Fixed Income	Bloomberg Barclays Capital Intermediate Gov't/Credit Index
Core Plus Fixed Income	Bloomberg Barclays Capital Aggregate Index
Large Capitalization:	
Growth Equity	Russell 1000 Growth Index
Value Equity	Russell 1000 Value Index
Core Index Equity	S&P 500 Index
Small/Mid Capitalization Equity	Russell 2500 Index
International Equity	MSCI ACWI ex U.S. Index
International Equity Small Cap	MSCI World ex U.S. Small Cap Index
Emerging Markets Equity	MSCI Emerging Market Index
Long/Short Equity	HFRI Strategic Index
Real Estate	NFI ODCE (net) Index

Policies:

1. The Board has established the following asset-mix guidelines for the Plan:

<u>Asset Class</u>	<u>Pension Plan Target</u>	<u>Range</u>
Domestic Large Cap Equities	17.5%	12.5-22.5%
Domestic Small/Mid Cap Equities	10%	5-15%
International Equity Investments	15%	10-20%
Emerging Market Equity Investments	5%	0-10%
Long/Short Equity	10%	5-15%
Fixed Income Investments	32.5%	27.5-37.5%
Real Estate	10%	5-15%

Should the fund move outside the ranges listed above, the Board, with the advice of the Investment Consultant, will review the allocations and shall have the authority to bring the asset allocation back within allowable ranges. In May 2017, the Board approved a 5% allocation to value added real estate that was taken from domestic large cap equities in April 2018. In August 2017, the Board revised the asset-mix guidelines to 17.5% domestic large cap equities and 10% real estate and adjusted the policy indices accordingly.

2. The portfolio will generally be invested in marketable securities.
3. Generally, equity portfolios will be comprised of common stocks or securities having characteristics of common stocks (such as convertible securities or warrants).
4. Fixed income portfolios will be comprised of treasury, agency, mortgage, corporate, asset-backed and full-faith-and-credit guaranteed loan securities of investment grade quality.
5. Assets may be held in commingled (mutual) funds as well as privately managed separate accounts. Assets held in commingled accounts should be managed in style/strategy consistent with the fund's stated objective and constraints. If assets are held in a commingled account, the Board will make its best efforts to utilize funds that are managed in strategies

that are generally consistent with the investment policies adopted by the Board.

6. Derivative instruments will only be used in ways that reduce risk or transfer risk and not to increase risk and are consistent with the fund's investment objectives. They will not be used to add leverage to the fund. Counterparty risk arising from derivative transactions will be limited to credits rated "A" or better. Instruments used may include, but are not limited to, futures, options, swaps, and structured notes.
7. Each asset manager's portfolio should be fully invested at all times, although cash may be held briefly when a security is sold prior to deciding which new security should be purchased. In no case shall cash comprise more than ten (10) percent of the portfolio without prior written approval of the Board.
8. Not less than annually, the Board will review investment results, manager performance, asset allocations, and investment policies and objectives.

Funding:

The bottom line for a retirement plan is the level of funding. The better the level of funding, the larger the ratio of assets accumulated and investment income potential. A better level of funding gives the participants a higher degree of assurance that their pension benefits are secure. The advantage of a well-funded plan is that the participants can look at assets that are irrevocably committed to the payment of benefits. Although the historical level of funding for the Plan is good, the Board and the employers continue to make a constant effort to improve that level, thereby assuring the participants of a financially sound retirement plan. The Plan fiduciary net position as a percentage of total pension liability was 86.0% in 2018. This represents an increase of 18.5% in the past ten years and an increase of 3.7% from the 2017 ratio of 82.3%. The fair value of plan assets increased 7.2%, while the total pension liability increased by only 2.5%. The liabilities for the years of 2009 through 2018 have increased 69.2%. Employer contributions have increased 22.9% in the past ten years, while actuarially determined contributions have increased 21.3%. Every effort is being made to increase employer contributions in order to match or exceed the actuarially determined contribution.

Professional Services:

Professional consultants retained by the Plan are essential to the effective and efficient operation of the Plan. The firm of Cheiron, Inc. provides actuarial consultation. The investment consulting firm of Asset Consulting Group, Inc. (ACG) has been retained as a professional co-fiduciary to assist the Board of Trustees with evaluating prospective investment managers, as well as risk and return potential within the investment portfolios. ACG also monitors the investment performance of the Plan and the capabilities of the investment managers retained by the Board. Custodial services, ancillary plan administration, and cash management services are provided by the BMO Harris Bank N.A. (BMO).

Awards and Acknowledgments

Certificate of Achievement:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Jackson County, Missouri for its comprehensive annual financial report (CAFR) of the Jackson County, Missouri Revised Pension Plan Trust Fund for the fiscal year ended June 30, 2017. This was the 25th consecutive year that the Jackson County, Missouri Revised Pension Plan has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily

readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements:

The compilation of this report reflects the combined effort of the staff of Jackson County, Missouri. The intent is to provide complete and reliable information as a basis for making management decisions, to present evidence of compliance with legal provisions and demonstrate responsible stewardship for the assets contributed by the members and their employers.

On behalf of the board, I would like to express our gratitude to the staff, the advisors, and to the many people who have worked so diligently to assure the successful operation of the Plan. I would also like to personally thank the members of the Jackson County, Missouri Pension Plan Board of Trustees, whose work has helped assure the members of the Plan can rely on future benefits.

Respectfully submitted,

Bob Crutsinger
Director of Finance
Jackson County

Jackson County, Missouri
Revised Pension Plan
Plan Administration
June 30, 2018

County ordinance provides that the administration of the plan be vested in a Pension Plan Board of Trustees appointed by the County Executive, subject to the disapproval of the County Legislature. The composition and membership of the Pension Plan Board of Trustees shall be established as follows:

- (i) Jackson County Chief Administrative Officer
- (ii) Jackson County Director of Human Resources
- (iii) One (1) active Member of the Plan who is an employee of the Circuit Court
- (iv) One (1) active Member of the Plan from the bargaining unit within the Office of the Prosecuting Attorney and with which the Office of the Prosecuting Attorney has a valid Memorandum of Understanding
- (v) Two (2) other active Members of the Plan, but not more than one member from any one department
- (vi) Four (4) independent business executives with special consideration to be given to those with investment experience
- (vii) One (1) labor leader or union representative affiliated with a labor organization or union with which the Employer has a current Memorandum of Understanding

The Investment Section, Schedule of Brokerage Commissions Paid, provides information on investment professionals who provide services to the Plan (see pages 53-54).

Independent Auditor's Report

To the Plan Participants and Members of the Jackson County, Missouri
Pension Plan Board of Trustees of the
Jackson County, Missouri Revised Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Jackson County, Missouri Revised Pension Plan (the Plan), a pension trust fund of Jackson County, Missouri, which comprise the statements of fiduciary net position as of June 30, 2018 and 2017; the related statements of changes in fiduciary net position for the years then ended; and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Jackson County, Missouri Revised Pension Plan as of June 30, 2018 and 2017, and the changes in fiduciary net position for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1, the financial statements present only a pension trust fund of Jackson County, Missouri, and do not purport to, and do not, present fairly the financial position of Jackson County, Missouri, as of June 30, 2018 and 2017, and the changes in its financial position for the years then ended. Our opinion is not modified with respect to this matter.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules of changes in net pension liability and related ratios, employer contributions and investment returns, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of expenses, listed in the table of contents as other supplementary information, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The accompanying introductory section, investment section, actuarial section and statistical section, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audits of the basic financial statements, and accordingly, we do not express an opinion or any assurance on them.

RSM US LLP

Kansas City, Missouri
November 19, 2018

Jackson County, Missouri
Revised Pension Plan
Management's Discussion and Analysis
June 30, 2018 and 2017

As management of the Jackson County, Missouri Revised Pension Plan, we offer readers of the Plan's financial statements this narrative overview and analysis of the financial activities of the Plan for the fiscal years ended June 30, 2018 and 2017.

Financial Highlights (in Thousands)

The Plan's fiduciary net position was \$288,443; reflecting an increase of \$19,115. This change in fiduciary net position is the result of several key factors: appreciation of \$21,907 in the fair value of assets; interest and dividend income of \$1,984; contributions to the Plan of \$9,909; benefits paid to participants of \$13,169; and expenses of \$1,515 (refer to page 21). The change in fiduciary net position reflects a decrease of \$8,460 from the 2017 increase of \$27,575; which is primarily due to the depreciation of \$4,769 in the fair value of the International Equity Fund, \$1,267 in the fair value of the Emerging Markets Equity Fund, and \$1,025 in the fair value of the Long-Short Equity Fund. The Plan's fiduciary net position indicates the Plan will be able to meet ongoing obligations to Plan participants and their beneficiaries.

Revenues (additions to fiduciary net position) for the year were \$32,534; this reflects a decrease of \$7,209 from 2017. The net investment income of \$22,625 reflects a decrease of \$7,510 from 2017. This is primarily due to the depreciation of the fair value of the International Equity Fund, Emerging Markets Equity Fund, and the Long-Short Equity Fund, as discussed above. Employer contributions to the plan were \$9,886, an increase of \$302 from 2017 (refer to page 21).

Benefits and administrative expenses (deductions from fiduciary net position) increased \$1,251 from \$12,168 in 2017 to \$13,419. Pension benefits paid to retirees, survivors, and disabled former employees totaled \$13,169, an increase of \$1,178 from 2017 (refer to page 21). Administrative expenses increased \$72, due to an increase in legal services and actuarial studies (refer to page 48).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Jackson County, Missouri Revised Pension Plan. The financial section of the Jackson County, Missouri Revised Pension Plan is comprised of three components: (1) Basic Financial Statements, (2) Required Supplementary Information, and (3) Other Supplementary Information.

Basic Financial Statements: (1) The Statements of Fiduciary Net Position are a snapshot of account balances at fair value as of the end of the reporting period whereby fiduciary net position equals assets less liabilities at fiscal year-end. It indicates the assets available for future payments to retirees. (2) The Statements of Changes in Fiduciary Net Position provide a view of current and prior year additions to and deletions from the Plan whereby the net change in fiduciary net position equals additions less deductions. Both statements are in compliance with all Government Accounting Standard Board (GASB) pronouncements for state and local governments. (3) The Notes to Basic Financial Statements provide additional information not readily evident in the statements themselves. The notes are an integral part of the financial statements.

**Jackson County, Missouri
Revised Pension Plan
Management's Discussion and Analysis
June 30, 2018 and 2017**

Overview of the Financial Statements (continued)

Required Supplementary Information: Consists of a Schedule of Changes in Net Pension Liability and Related Ratios, a Schedule of Employer Contributions, and a Schedule of Investment Returns.

Other Supplementary Information, Schedule of Expenses: The Schedules of Administrative Expenses, Investment Expenses and Payments to Vendors are presented immediately following the required supplementary information. These schedules provide historical and additional detailed information considered useful in evaluating the condition of the Plan.

Financial Analysis

Investments

Defined Benefit Pension Trust Fund Changes in Fiduciary Net Position

The investment policy is set by the Pension Plan Board of Trustees. The policy states the composition of investments of the fund will not exceed the range of 32.5% to 82.5% in equities, 27.5% to 37.5% in fixed income investments, and 5% to 15% in real estate. The following chart represents the composition of the fiduciary net position at June 30, 2018, 2017, and 2016, respectively. As of June 30, 2018, total corporate stocks were 21.5% of the portfolio, while the Bond Collective Trust Fund and the International Equity Fund accounted for 19.4% and 13.0%, respectively. The remaining funds were in U.S. government securities, a limited partnership, a long-short equity fund, an emerging markets equity fund, a S&P 500 index fund, corporate bonds and debentures, municipal bonds, a money market fund, a real estate pooled separate account, and a special situations property fund.

2018

Fiduciary net position increased \$19,115. The most significant factors were the addition of the Special Situations Property Fund with a valuation of \$14,450, and increases of \$7,697, \$5,471, and \$2,304 in the valuation of the Bond Collective Trust Fund, U.S. Government Securities, and the International Equity Funds, respectively. The increases were offset by a decrease of \$14,200 in the valuation of corporate stocks, because corporate stocks were sold to purchase the Special Situations Property Fund investment.

2017

Fiduciary net position increased \$27,575. The most significant factors were increases of \$8,191, \$7,073, and \$3,439 in the valuation of corporate stocks, the International Equity Fund, and the Emerging Markets Equity Fund; respectively.

2018

The appreciation of the fair value of investments decreased from \$29,288 in 2017 to \$21,907 in 2018, a decrease of \$7,381. This is most notably due to decreases in appreciation of \$4,769, \$1,267, and \$1,025 of the fair value of the International Equity Fund, the Emerging Markets Equity Fund, and the Long-Short Equity Fund; respectively, between 2017 and 2018. As of June 30, 2018, the appreciation of the fair value of the International Equity Fund, the Emerging Markets Equity Fund, and the Long-Short Equity Fund were \$2,304, \$1,226, and \$1,649, respectively.

The decrease of \$7,510 in net investment income is primarily due to the \$7,381 decrease in appreciation of the fair value of investments. The appreciation of the fair value of the International Equity Fund decreased \$4,769, the largest decrease by category from 2017 to 2018.

Employer contributions to the plan increased \$302 and 3.2%.

Benefits paid to retirees, survivors, and disabled former employees increased \$1,179 and 9.8%. Part of the increase was due to net increase of 43 participants receiving benefits during the reporting period.

Administrative expenses were \$250 for 2018, an increase of \$72 and 40.5% from 2017. The increase was primarily due to an increase in the use of legal services and actuarial studies.

Investment expense increased \$187 and 17.3% from 2017. Investment fees are based on the fair value of each portfolio.

Management's Discussion and Analysis
June 30, 2018 and 2017**

2017

The appreciation of the fair value of investments increased from \$(2,085) in 2016 to \$29,288 in 2017, an increase of \$31,373. This is most notably due to increases in appreciation of \$15,679, \$7,073, and \$4,816 in the fair value of corporate stocks, the International Equity Fund, and the Long-Short Equity Fund; respectively, between 2016 and 2017. As of June 30, 2017, the appreciation of the fair value of corporate stocks, the International Equity Fund, and the Long-Short Equity Fund were \$11,928, \$7,073, and \$2,673, respectively.

The increase of \$30,655 in net investment income is primarily due to the \$31,373 increase in appreciation of the fair value of investments, partially offset by a \$740 decrease in interest and dividends. The appreciation of the fair value of corporate stocks increased \$15,679, the largest increase by category from 2016 to 2017.

Employer contributions to the plan increased \$619 and 6.9%.

Benefits paid to retirees, survivors, and disabled former employees increased \$922 and 8.3%. Part of the increase was due to net increase of 71 participants receiving benefits during the reporting period.

Administrative expenses were \$178 for 2017, a decrease of \$36 and 16.8% from 2016. The decrease was primarily due to a decrease in the use of legal services.

Investment expense increased \$22 and 2.0% from 2016. Investment fees are based on the fair value of each portfolio.

Economic Factors (in Thousands)

2018

Employer contributions to the Plan for the 2017-2018 fiscal year increased 3.2%.

The assets of Jackson County exceeded its liabilities at the close of fiscal year 2017 by \$330,957 (net position). Of this amount, \$289,660 was invested in capital assets (net of related debt). Restricted net position was comprised of \$17,159 for debt service, \$9,781 for capital projects, and \$506 for workers' compensation claims. The remaining balance of \$13,852 is unrestricted and may be used to meet the government's ongoing obligations to its citizen and creditors.

The total debt of Jackson County decreased \$40,985 in fiscal year 2017.

The real and personal property assessed value of \$10,601,411 in 2017 reflected an increase in the base of \$730,359 and 7.4% from 2016. Revenue for Jackson County in 2017 was \$247,054 an increase of 1.3% from 2016.

2017

Employer contributions to the Plan for the 2016-2017 fiscal year increased 6.9%.

The assets of Jackson County exceeded its liabilities at the close of fiscal year 2016 by \$346,179 (net position). Of this amount, \$303,715 was invested in capital assets (net of related debt). Restricted net position was comprised of \$ 24,601 for debt service, \$1,181 for capital projects, and \$502 for workers' compensation claims. The remaining balance of \$16,179 is unrestricted and may be used to meet the government's ongoing obligations to its citizen and creditors.

The total debt of Jackson County increased \$40,012 in fiscal year 2016. The County issued \$51,950 of bonds and entered into \$155 of capital lease obligations during the fiscal year.

The real and personal property assessed value of \$9,871,052 in 2016 reflected an increase in the base of \$189,960 and 2.0% from 2015. Revenue for Jackson County in 2016 was \$243,781, an increase of 2.7% from 2015.

Jackson County, Missouri
Revised Pension Plan
Notes to Basic Financial Statements
June 30, 2018 and 2017

(1) Summary of Significant Accounting Policies

Measurement Focus, Basis of Accounting, and Basis of Presentation

The Jackson County, Missouri Revised Pension Plan (The Plan) uses a fund to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The Plan's fund is classified as a Pension Trust Fund of fiduciary fund type. Pension Trust Funds account for assets held by the Plan in a trustee capacity or as an agent on behalf of others and are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting. Employee contributions are recognized in the plan year applicable to the pay period they are withheld from the employee's pay. Employer contributions are recognized in the plan year to which the underlying payroll applies, if received within 30 days of the plan year-end. Interest and dividend income are recorded when earned. Expenses are recorded when the corresponding liabilities are incurred. Benefits are recognized when due and payable in accordance with the terms of the Plan.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available; for others, it might not be available. However, the objective of a fair value measurement in both cases is the same—that is, to determine the price at which an orderly transaction to sell the asset or transfer the liability would take place between market participants at the measurement date under current market conditions. Fair value is an exit price at the measurement date from the perspective of a market participant that controls the asset or is obligated for the liability. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. See Note (3) for additional information regarding fair value measures.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying footnotes. Actual results could differ from these estimates.

Administrative Expenses

Actuarial, investment management and bank trustee fees and expenses are included in the Plan's expenses when incurred. Expenses applicable to the Plan year that have not been paid, are accrued and reflected in the total expense reported.

Jackson County, Missouri
Revised Pension Plan
Notes to Basic Financial Statements
June 30, 2018 and 2017

(2) Plan Description

Plan Administration

The Jackson County, Missouri Revised Pension Plan (the Plan) is considered a cost-sharing multiple-employer defined benefit plan providing for retirement, disability and death benefits for all eligible employees of Jackson County (the County), the Little Blue Valley Sewer District, the Jackson County Board of Election Commissioners, the Kansas City Board of Election Commissioners, the Jackson County Sports Complex Authority, the Jackson County Law Library, Inc., and the Eastern Jackson County Multi-Jurisdictional Anti-Drug Task Force. The benefit provisions are provided under the authority of Section 50.337, RSMo. The Pension Plan Board of Trustees is responsible for the overall governance of the Pension Plan, including all administrative, operational, and investment functions. The Board shall have all the powers and duties that are necessary and proper to enable it to fully and effectively carry out its responsibilities. The Board consists of eleven members—the Jackson County Chief Administrative Officer, the Jackson County Director of Human Resources, one active plan member employed by the Circuit Court, one active plan member from the Prosecuting Attorney's bargaining unit, two other active plan members from other departments, four independent business executives, and a labor leader or union representative from one of the County's bargaining units (see page 8 for additional information). Day-to-day administration of the Plan is performed by employees of the Jackson County Human Resources and Finance Departments.

The employers listed in the paragraph above, have agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet benefits to be paid to Plan members. The Plan is included in the County's financial reports as a Pension Trust Fund, however, these financial statements present only the Pension Trust Fund. The County, by action of the County Legislature, has the right under the Plan to discontinue contributions at any time and terminate the Plan. In the event of Plan termination, the Plan's net position is to be distributed in the following order:

1. To provide for the distribution of non-refunded participants contributions.
2. To provide for the continuance of benefits to those receiving such prior to plan termination.
3. To provide benefits for those eligible, but not yet receiving benefits as of the plan termination date.
4. To provide benefits to participants at normal retirement date eligible for termination benefits whether or not they have actually terminated, without reference to the order they shall reach normal retirement date.
5. To provide for subsequent normal retirement benefits for members upon reaching normal retirement date.

Jackson County, Missouri
Revised Pension Plan
Notes to Basic Financial Statements
June 30, 2018 and 2017

(2) Plan Description (continued)

Plan Membership

As of June 30, 2018 and 2017, the Jackson County, Missouri Revised Pension Plan membership consisted of:

	<u>2018</u>	<u>2017</u>
Retirees and beneficiaries currently receiving benefits	1,350	1,307
Terminated employees entitled to benefits but not yet receiving them	1,160	1,134
Current employees:		
Vested	846	890
Non Vested	<u>400</u>	<u>401</u>
Total	<u><u>3,756</u></u>	<u><u>3,732</u></u>

Benefits Provided

Plan benefit terms may be amended by the Jackson County Legislature.

Eligibility: Employees become eligible for the plan on the January 1st after completion of one year of full-time service.

Vesting: The participant is 100% vested after five years of service. No partial vesting is allowed.

Normal Retirement: The Plan calls for the normal retirement benefit at age sixty-five of 1.5% of the average monthly earnings for each year of credited service (computed average monthly earnings for the highest thirty-six consecutive months, from the previous one hundred twenty months). Effective December 15, 1997, the Plan was amended to also provide a normal retirement benefit to those active employees who have reached the age of fifty-five and whose years of age and credited service total eighty years.

Normal Retirement (Elected Officials): Effective November 5, 2003, the Plan was amended to provide a benefit schedule applicable to Elected Officials. The Plan allows for a normal retirement benefit calculation of 4.167% of the Average Monthly Earnings for each year of the first twelve years of credited service plus 5% of Average Monthly Earnings times years of credited service from years 12 to 16.

Early Retirement: Early retirement is available at age fifty-five and five years of service, subject to certain reductions from the normal benefit. No benefits are available before age fifty-five, exclusive of disability benefits.

Disability Retirement: The participant shall receive the accrued benefit, if the participant has five years of service and the disability is total and permanent as defined by the Social Security Act.

Jackson County, Missouri
Revised Pension Plan
Notes to Basic Financial Statements
June 30, 2018 and 2017

(2) Plan Description (continued)

Pre-Retirement Death Benefit: If any active member should die being vested in the plan, a lump sum death benefit equal to the deceased member's current benefit at the time of death shall be payable.

Cost of Living Adjustments: The Plan provisions regarding cost of living adjustments (COLAs) allow for discretionary increases of up to 3.0% for members who have been retired for a full year.

IRS Determination

The Plan has received a favorable determination letter dated May 17, 2017, from the Internal Revenue Service indicating that it is qualified under the Internal Revenue Code. The Plan has been amended since receiving this determination letter. The Plan Administrator believes the Plan is currently designed, and is being operated, in compliance with the applicable requirements of the Code.

Contributions

Employer contributions are subject to annual appropriation by Jackson County, Missouri, and other participating employers. The only employee contributions are the 4% required to be contributed by elected officials for up to 16 years. No other employee contributions are allowed. The Plan receives an annual actuarial valuation for the purpose of determining the recommended contribution rates. The County's contribution rate was 14.4% of annual covered payroll for July 2016 to December 2016, 16.53% for 2017, and 14.23% for January to June 2018, except for the General Fund, which contributed 9% of annual covered payroll. All other employers' contribution rates were 15.46% for July to December, 2016, 16.53% for 2017, and 14.23% for January to June, 2018, respectively.

Administrative costs of the pension plan are financed through investment earnings when incurred.

Funded Status and Changes in Net Pension Liability

As of July 1, 2018, the most recent actuarial valuation date, the Plan was 86.0% funded (on the market value of assets basis). The total pension liability was \$335,578,550; and the plan fiduciary net position was \$288,442,514; resulting in a net pension liability (NPL) of \$47,136,036. The annual covered payroll (annual payroll of active employees covered by the Plan) was \$66,315,839; and the ratio of the NPL to the annual covered payroll was 71.1%. Using the actuarial value of assets basis, the Plan was 84.6% funded as of July 1, 2018.

As of July 1, 2017, the Plan was 82.3% funded (on the market value of assets basis). The total pension liability was \$327,392,074; and the plan fiduciary net position was \$269,327,017; resulting in a net pension liability (NPL) of \$58,065,057. The annual covered payroll (annual payroll of active employees covered by the Plan) was \$60,510,891; and the ratio of the NPL to the annual covered payroll was 96.0%. Using the actuarial value of assets basis, the Plan was 82.2% funded as of July 1, 2017.

(3) Investments

Investment Policy

The Plan's investments are managed by independent investment managers and are held by the current custodian, BMO Harris Bank N.A. (BMO), except for the commingled investments which are held by the custodian chosen by such commingled fund, and maintained, for reporting purposes only, at BMO. Equity securities are limited to 82.5% of total investments, with an allocation target of 57.5%. Fixed income investments, other than cash equivalents, are limited to 37.5% of total investments, with an allocation target of 32.5%. Real estate investments are limited to 15% of total investments, with an allocation target of 10%. Investment performance is monitored by a professional consultant and reviewed not less than annually by the Pension Board of Trustees, which has the authority to amend investment policy decisions, including asset allocation targets and acceptable asset classifications.

Concentration of Investments

At June 30, 2018, the investment in the Bond Collective Trust Fund represented 19.4% of the Plan's total investments, the International Equity Fund represented 13.0%, the Long-Short Equity Fund represented 9.4%, the S&P 500 Index Fund represented 5.4%, the Real Estate Pooled Separate Account represented 5.4%, the Emerging Markets Equity Fund represented 5.4%, and the Special Situations Property Fund represented 5.0%. All other individual investments represented less than 5% of the Plan's total investments.

At June 30, 2017, the investment in the Bond Collective Trust Fund represented 17.9% of the Plan's total investments, the International Equity Fund represented 13.1%, the Long-Short Equity Fund represented 9.5%, the S&P 500 Index Fund represented 6.1%, the Real Estate Pooled Separate Account represented 5.4%, and the Emerging Markets Equity Fund represented 5.1%. All other individual investments represented less than 5% of the Plan's total investments.

Rate of Return

For the years ended June 30, 2018 and 2017, the annual money weighted rates of return on pension plan investments, net of pension plan investment expense, were 8.58% and 12.64%, respectively. The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Plan does not have a policy for interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Plan does not have a policy for credit risk.

**Jackson County, Missouri
Revised Pension Plan
Notes to Basic Financial Statements
June 30, 2018 and 2017**

(3) Investments (continued)

Custodial Credit Risk

The custodial credit risk for investments is the risk that in the event of the failure of the counter party (e.g. Broker-Dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Plan does not have a policy for custodial credit risk.

At June 30, 2018, and 2017, the Plan's U.S. government securities, corporate stocks, corporate bonds and debentures, municipal bonds, and money market funds were uninsured and unregistered investments with the securities held by the counterparty's trust department or agent in the name of the Plan. The Plan's investments during the years ended June 30, 2018, and 2017, did not differ significantly from these at the respective year-ends in amounts or level of risk, except that the Plan sold domestic large cap stocks to add a special situations property fund to the Plan's portfolio during 2018.

Fair Value Measurements

The Plan categorizes its assets and liabilities measured at fair value within the hierarchy established by generally accepted accounting principles. Assets and liabilities valued at fair value are categorized based on inputs to valuation techniques as follows:

Level 1 Input: Quoted prices for identical assets or liabilities in an active market that an entity has the ability to access.

Level 2 Input: Inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly. Agency securities and corporate bonds are valued using either a price or spread basis as determined by the observed market data. Municipal bonds are valued using yield curves which are adjusted throughout the day based on trades and other pertinent market information.

Level 3 Input: Inputs that are unobservable for the asset or liability which are typically based upon the Plan's own assumptions as there is little, if any, related market activity.

Hierarchy: The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

Inputs: If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The Plan has the following recurring fair value measurements as of June 30, 2018 and 2017:

(3) Investments (continued)

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. U.S. Treasury securities classified in Level 1 of the fair value hierarchy are valued throughout the day using continuous feeds from a number of live data sources. U.S. Agency securities and corporate bonds classified in Level 2 of the fair value hierarchy are valued using either a price or spread basis as determined by the observed market data. Municipal bonds classified in Level 2 of the fair value hierarchy are valued using yield curves which are adjusted throughout the day based on trades and other pertinent market information. The yield curves are generated and adjusted based on factors such as levels on bellwether issues, established trading spreads between similar issuers or credits, historical trading spreads over widely accepted market benchmarks, new issue scales, and market information from third party sources. U.S. agency securities classified in Level 3 of the fair value hierarchy are valued at estimated fair value, based on discounted cash flows. Money market funds are valued at amortized cost.

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented on the following table.

	Fair Value		Frequency (if	Redemption
	June 30, 2018	June 30, 2017	Currently Eligible)	Notice period
Bond Collective Trust Fund (1)	\$ 56,004	\$ 48,307	Daily	0 to 3 days
Limited Partnership (2)	6,080	5,406	1st business day of the month	15th day of the prior month
International Equity Fund (3)	37,652	35,348	Daily	1 day
Long-Short Equity Hedge Fund (4)	27,163	25,514	Quarterly	45 days
Emerging Markets Equity Fund (5)	15,463	13,769	Each Wednesday (or the next business day)/Last business day of each month	10 business days
S&P 500 Index Fund (6)	15,583	16,405	Daily	30 days for 100% redemption
Real Estate Pooled Separate Account (7)	15,687	14,495	Daily	1 day
Special Situations Property Fund (8)	14,450	-	Quarterly	45 days*
Total investments measured at the NAV	<u>\$ 188,082</u>	<u>\$ 159,244</u>		

* Effective August 1, 2018, the redemption notice period was changed to 30 days.

Notes to Basic Financial Statements
June 30, 2018 and 2017

(3) Investments (continued)

Units of the Limited Partnership and the S&P 500 Index Fund are sold quarterly to pay the management fees of the respective investment managers. At June 30, 2018 and 2017, the Plan had no unfunded commitments.

1. *Bond Collective Trust Fund.* The fund is a core plus fixed income fund in a private placement collective trust. The objective of the fund is high total investment return through a combination of current income and capital appreciation. There are no requirements to give advanced notice of intent to redeem the investment, but three days' notice is preferred. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the fund.
2. *Limited Partnership.* The investment is a small cap equity fund established as a limited partnership. The fund's objective is to achieve a long-term total return by investing in non-U.S. small capitalization companies. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the Plan's ownership interest in the partners' capital.
3. *International Equity Fund.* The investment is an international dynamic equity fund. The fund's objective is to achieve long term capital growth, primarily through investment in shares of companies around the world, except the United States. At least two-thirds of the fund's assets are to be invested in the equities of companies domiciled in Europe, Australia, Asia, and Latin America. The fund is traded daily and redemption normally occurs after one days' written notice. However, if the fund's requested withdrawals exceed 10 percent of the fund's net asset value, the fund may defer the excess of such withdrawals to the next dealing day. All withdrawal requests relating to an earlier dealing day will be completed before new requests are considered, subject to further deferral and to liquidity being raised with respect to the next or any subsequent dealing day. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the fund.
4. *Long-Short Equity Hedge Fund.* The fund invests in other hedge funds that invest across liquid asset classes, primarily focusing on equity long/short in global markets. The underlying funds aim to invest primarily in companies in developed markets through equity and equity-related securities. The majority of the fund's underlying investments can only be redeemed on the first business day of each calendar quarter or each calendar month. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the fund.
5. *Emerging Markets Equity Fund.* The objective of this private fund is to seek long-term capital appreciation by investing at least 80% of its assets in emerging market equity securities. The fund may invest in securities across all market capitalizations and styles. Under normal market conditions, redemptions occur weekly on Wednesday (or the next business day) or the last business day of the month, with 10 business days' advanced written notice. However, if the fund cannot obtain or set a price for a material portion of the fund's

Jackson County, Missouri
Revised Pension Plan
Notes to Basic Financial Statements
June 30, 2018 and 2017

(3) Investments (continued)

investments, is unable to liquidate fund investments at prices representative of fair value, in otherwise unusual market conditions, or when it is in the best interest of fund and its remaining investors, redemption rights may be suspended until the foregoing conditions have abated. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the fund.

6. *S&P 500 Index Fund.* The objective of the fund is to provide a vehicle to access the U.S. equity market and investment results that approximate the overall performance of the common stocks included in the Standard & Poor's 500 Composite Stock Price Index. The fund requires 30 days' notice to redeem 100% of the Plan's investment. Notification of other planned transactions is to be provided as soon as practicable. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the fund.
7. *Real Estate Pooled Separate Account.* The account is a diversified real estate equity account consisting primarily of high quality, well-leased real estate properties in the multifamily, industrial, office, retail, and hotel sectors. The objective of the account is to invest in a well-diversified real estate portfolio that reflects the overall performance of the U.S. commercial real estate market. Redemptions normally occur with one day of notice. However, the accountholder has the right to impose withdrawal limitations to pay withdrawal requests on a pro rata basis as cash becomes available for distribution. The fair value of this investment has been determined using the NAV per share (or its equivalent) of the Plan's ownership interest in the accountholder's capital.
8. *Special Situations Property Fund.* The fund is a balanced portfolio of stabilized and value-added real estate opportunities. The objective of this fund is to provide a moderate level of current income and/or high residual property appreciation by investing in a wide variety of value-added real estate opportunities in the United States. The fair value of the investment has been determined using the NAV per share (or its equivalent) of the fund.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Plan does not have a policy related to foreign currency risk.

At June 30, 2018, the Plan had invested in a Limited Partnership, an International Equity Fund, a Long-Short Equity Fund, and an Emerging Markets Equity Fund, all of which invested in international stocks. The fair value of the Limited Partnership was \$6,079,899 and 2.1% of the Plan's portfolio. The fair value of the International Equity Fund was \$37,652,344 and 13.0% of the Plan's portfolio. The fair value of the Long-Short Equity Fund was \$27,163,454 and 9.4% of the Plan's portfolio. The fair value of the Emerging Markets Equity Fund was \$15,462,927 and 5.4% of the Plan's portfolio. The Bond Collective Trust Fund also had some international investments. In addition, the Plan's corporate bonds and debentures include international bonds with a fair value of \$3,034,052, representing 1.1% of the Plan's portfolio.

Notes to Basic Financial Statements
June 30, 2018 and 2017

(4) Net Pension Liability and Actuarial Assumptions

At June 30, 2017, the Plan had invested in a Limited Partnership, an International Equity Fund, a Long-Short Equity Fund, and an Emerging Markets Equity Fund, all of which invested in international stocks. The fair value of the Limited Partnership was \$5,405,841 and 2.0% of the Plan's portfolio. The fair value of the International Equity Fund was \$35,348,062 and 13.1% of the Plan's portfolio. The fair value of the Long-Short Equity Fund was \$25,514,305 and 9.5% of the Plan's portfolio. The fair value of the Emerging Markets Equity Fund was \$13,769,081 and 5.1% of the Plan's portfolio. The Bond Collective Trust Fund also had some international investments. In addition, the Plan's corporate bonds and debentures include international bonds with a fair value of \$3,905,706 representing 1.5% of the Plan's portfolio.

Net Pension Liability of the Employers

The components of the net pension liability of the employers at June 30, 2018 and 2017, were as follows:

	2018	2017
Total Pension Liability	\$ 335,578,550	327,392,074
Plan Fiduciary Net Position	(288,442,514)	(269,327,017)
Net Pension Liability	<u>\$ 47,136,036</u>	<u>58,065,057</u>

Plan Fiduciary Net Position as a % of the Total Pension Liability	86.0%	82.3%
--	-------	-------

Actuarial Assumptions

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Most assumptions were revised in 2017 based on the results of the experience study conducted in 2017 for the period from July 1, 2011 to June 30, 2016.

The actuarial assumptions used are as follows:

Valuation dates:	<u>July 1, 2018 and 2017</u>
Investment rate of return, net of expenses:	6.75% compounded annually
Projected salary increases:	Ranges from 2.75% to 4.75%
Assumed inflation rate:	2.5% per annum
Post retirement benefit increase:	2.0%

(4) Net Pension Liability and Actuarial Assumptions (continued)

Mortality:

Active and Terminated Vested Participants: RP 2014 Healthy Non-Annuitant Table adjusted back to 2006 using MP-2014, projected forward with MP-2016 on a generational basis.

Beneficiaries and Retirees: RP-2014 Healthy Annuitant Table adjusted back to 2006 using MP-2014, multiplied by 1.2 for males and 1.0 for females, and projected forward with MP-2016 on a generational basis.

Disabled Members: RP-2014 Disabled Mortality Table adjusted back to 2006 using MP-2014, projected forward with MP-2016 on a generational basis.

The July 1, 2018 and 2017 actuarial valuations assume a 6.75% rate of return. The Board of Trustees has adopted an asset allocation strategy that structures the Plan's assets in such a way as to maximize the financial return to the retirement system consistent with the risks incumbent in each investment and the portfolio as a whole, while maintaining an appropriate level of diversification of the retirement system assets. The Board of Trustees, with assistance from Asset Consulting Group, our investment consultant, has reviewed the asset allocation of the Plan based on the long term capital market assumptions (including expected return, volatility and correlation among asset types) developed by the investment consultant. The Board of Trustees, upon the advice and consultation from the investment consultant, believes that there is a reasonable probability that the portfolio is structured in such a manner as to provide a 6.75% annualized rate of return over a long-term (20+ years) time horizon. There is also a reasonable probability of achieving a 6.75% rate of return in any given year; however, the range of potential outcomes around the median is much wider over shorter periods.

Best estimates of arithmetic real rates of return for each major asset class as of June 30, 2018 and 2017, (see the discussion of the Plan's investment policy) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	
	2018	2017
Core Bonds	2.74%	2.77%
Core Plus	3.01%	3.04%
U.S. Large Cap Equity	7.53%	7.48%
U.S. Small Cap Equity	8.79%	8.71%
International Developed Equity	8.51%	8.45%
Emerging Market Equity	9.80%	9.72%
Long-Short Equity	6.27%	7.23%
Core Real Estate	5.91%	5.88%
Value Added Real Estate	7.15%	Not Applicable

Notes to Basic Financial Statements
June 30, 2018 and 2017**

(4) Net Pension Liability and Actuarial Assumptions (continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75% for the years ended June 30, 2018 and 2017. The projection of cash flows used to determine the discount rate assumed that elected official contributions will continue at the current rate of 4.0%. Employer contributions were assumed to be made in accordance with the current contribution policy as follows:

- For Jackson County, a contribution is made based upon total budgeted payroll (i.e. not just pension payroll). The contribution is 9% of general employee total payroll and a contribution rate to be determined annually for other employee payroll which may or may not be equal to the most recent actuarially determined employer contribution rate. For calendar year 2017, the rate for the other employee payroll was 16.53%, which was the actuarially determined rate from the July 1, 2016 actuarial valuation. For calendar year 2018, the rate for the other employee payroll was 14.23%, which was the actuarially determined rate from the July 1, 2017 actuarial valuation.
- For employers other than the County, contributions are made at the actuarially determined rate.

Based on those assumptions, the Plan's fiduciary net position was projected to be available to make projected future benefit payments for current members for all future years. Therefore, the single equivalent rate used to determine the Total Pension Liability as of June 30, 2018 is 6.75%, the long-term expected rate of return on Plan investments.

Sensitivity

The following presents the net pension liability of the Plan, calculated using the discount rate of 6.75%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

Net Pension Liability	1% Decrease (5.75%)	Discount Rate (6.75%)	1% Increase (7.75%)
2018	\$ 92,200,594	47,136,036	10,041,690
2017	102,732,585	58,065,057	21,346,242

(5) New Pronouncements

The Plan implemented the following Governmental Accounting Standards Board (GASB) Statements during the year:

- GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. This Statement had no effect on the Plan's financial statements in the current year.
- GASB Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement had no effect on the Plan's financial statements in the current year.
- GASB Statement No. 85, Omnibus 2017. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). This Statement had no effect on the Plan's financial statements in the current year.
- GASB Statement No. 86, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. This Statement had no effect on the Plan's financial statements in the current year.

Notes to Basic Financial Statements
June 30, 2018 and 2017

(5) New Pronouncements (continued)

The GASB has issued several Statements not yet required to be implemented by the Plan. The Plan's management has not yet determined the effect these Statements will have on the Plan's financial statements. However, the Plan plans to implement all standards by required dates. The Statements which may impact the Plan are as follows:

- GASB Statement No. 83, *Certain Asset Retirement Obligations*, issued December 2016, will be effective for the Plan beginning with its fiscal year ending June 30, 2019. Under Statement No. 83, a government that has legal obligations to perform future asset retirement activities related to its tangible capital assets is required to recognize a liability and a corresponding deferred outflow of resources. The Statement identifies the circumstances that trigger the recognition of these transactions. The Statement also requires the measurement of an asset retirement obligation to be based on the best estimate of the current value of outlays expected to be incurred while deferred outflow of resources associated with the asset retirement obligation will be measured at the amount of the corresponding liability upon initial measurement and generally recognized as an expense during the reporting periods that the asset provides service. The Statement requires disclosures including a general description of the asset retirement obligation and associated tangible capital assets; the source of the obligation to retire the assets; the methods and assumptions used to measure the liability; and other relevant information.
- GASB Statement No. 84, *Fiduciary Activities*, issued January 2017, will be effective for the Plan beginning with its fiscal year ending June 30, 2019. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.
- GASB Statement No. 87, *Leases*, issued June 2017, will be effective for the Plan beginning with its fiscal year ending June 30, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.
- GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowing and Direct Placements*, issued April 2018, will be effective for the Plan beginning with its fiscal year ending June 30, 2019. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to

Jackson County, Missouri

Notes to Basic Financial Statements
June 30, 2018 and 2017

(5) New Pronouncements (continued)

debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

- GASB Statement 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, issued June 2018, will be effective for the Plan beginning with its fiscal year ending June 30, 2021. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.
- GASB Statement 90, *Majority Equity Interests—An Amendment of GASB Statements No. 14 and No. 61*, issued August 2018, will be effective for the Plan beginning with its fiscal year ending June 30, 2020. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units.

Net Pension Liability as a % of Covered Payroll	71.08%	95.96%	121.10%	92.15%	60.46%

In 2017, the Plan changed the following assumptions based on the results of an experience study: (1) Changed the earnings assumption from 7.0% to 6.75%; (2) Changed the amortization method from a level dollar rolling 30-year open period to a level dollar layered 20-year closed amortization period for current and future unfunded liabilities, while continuing the separate 20-year amortization for the 2013 Plan changes; and (3) Changed the tables and assumptions for mortality, retirement, termination, disability, and salary increases.

In 2015, the Plan incorporated the new RP-2014 mortality table, resulting in an increase of approximately 5.6% in plan liabilities over the RP-2000 table used in the prior valuation. The method of determining the funding value of assets was altered slightly to improve the smoothing of asset gains and losses going forward, and was reset to the fair value as of July 1, 2015.

In 2014, the retirement rate assumptions were updated as a result of an experience study to better reflect future anticipated retirement rates. In addition, the mortality table was updated to include generational improvements to future mortality.

Jackson County, Missouri
Revised Pension Plan

Investment Section

September 21, 2018

Jackson County, Missouri Revised Pension Plan
Kansas City, Missouri

The investment performance returns as shown in the five-year investment performance review are all calculated using information derived from monthly statements provided by the Plan's custodial institution. Monthly returns are calculated using a time-weighted rate of return methodology based upon beginning and end of month market values and cash flows. Monthly returns are linked to provide compounded, annual, and annualized rates of return for periods of one, three, five years and beyond when available. The returns as shown in this report are gross of investment manager fees.

The investment performance of the Total Plan and its segments is compared to relevant benchmark returns and presented to the Jackson County, Missouri Revised Pension Plan Board of Trustees on a monthly basis. For the Total Plan, the benchmark is an index which reflects the asset mix policy established by the Board and is referred to as the Policy Index. Comparisons to the Policy Index and the median return of a universe of total funds with similar asset allocation are presented to the Board of Trustees on a quarterly basis.

All of the above comparisons are included in the Statement of Investment Policy and Objectives and are also reported to the Board of Trustees on a quarterly basis. Investment objectives are spelled out for the Total Plan and each of the segments for one year time periods and longer (three - five years), and include protecting the fund corpus, both nominally and in terms of inflation, by achieving a return in excess of the 6.75% actuarial rate, the median return of a universe of funds with similar asset mix, and that of an unmanaged index return (constructed to reflect the asset mix of the Fund's assets). In addition, investment managers are monitored for adherence to style, both on a returns-based regression analysis as well as a holdings-based characteristic analysis versus the appropriate benchmarks specified in the Statement of Investment Policy and Objectives. Current asset allocation ranges and targets within those ranges are measured against target ranges established in the Statement of Investment Policy and Objectives on a monthly basis. The status of each is also presented on a monthly investment performance review submitted to the Board of Trustees.

The risk profile of the Total Plan and its segments is also measured quarterly for one, three, and five years, and includes the usual Modern Portfolio Theory statistics: alpha, beta, R², and standard deviation. To further reduce risk, Plan assets are diversified by asset class, security, and by investment manager style.

Respectfully submitted,

Patricia M. Haffner, CFA
Asset Consulting Group
Investment Consultant to the Jackson County, Missouri Revised Pension Plan

**Jackson County, Missouri
Revised Pension Plan
Summary of Investment Policies
June 30, 2018**

This section of the report presents the investment policies of the Plan. The Pension Plan Board of Trustees has set out the following investment policy guidelines:

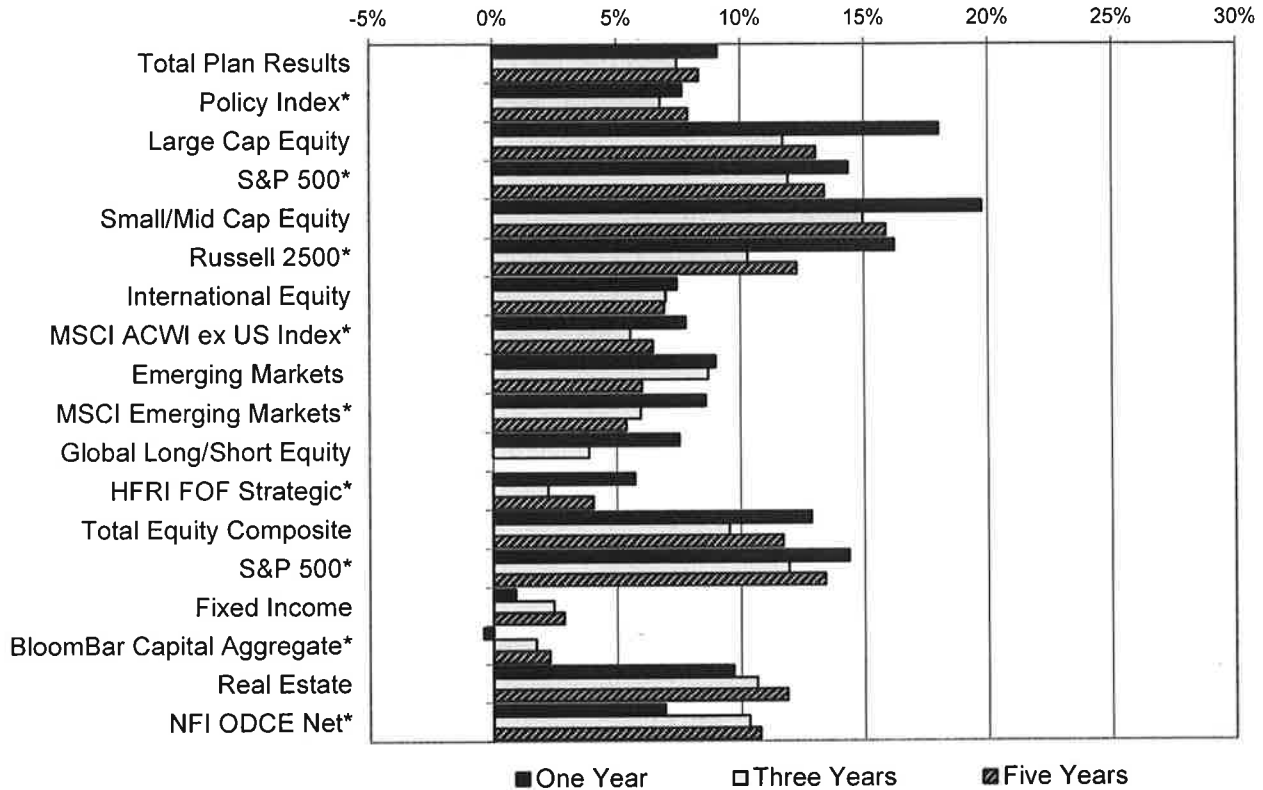

1. The Board has established the following asset-mix guidelines for the Plan:

<u>Asset Class</u>	<u>Pension Plan Target</u>	<u>Range</u>
Domestic Large Cap Equities	17.5%	12.5-22.5%
Domestic Small/Mid Cap Equities	10%	5-15%
International Equity	15%	10-20%
Emerging Market Equity	5%	0-10%
Long/Short Equity	10%	5-15%
Fixed Income	32.5%	27.5-37.5%
Real Estate	10%	5-15%

Should the fund move outside the ranges listed above, the Board, with the advice of the Investment Consultant, will review the allocations and shall have the authority to bring the asset allocation back within allowable ranges. In May 2017, the Board approved a 5% allocation to value added real estate that was taken from domestic large cap equities in April 2018. In August 2017, the Board revised the asset-mix guidelines to 17.5% domestic large cap equities and 10% real estate and adjusted the policy indices accordingly.

2. The portfolio will generally be invested in marketable securities.
3. Generally, equity portfolios will be comprised of common stocks or securities having characteristics of common stocks (such as convertible securities or warrants).
4. Fixed income portfolios will be comprised of treasury, agency, mortgage, corporate, asset-backed and full-faith-and-credit guaranteed loan securities of investment grade quality.
5. Assets may be held in commingled (mutual) funds as well as privately managed separate accounts. Assets held in commingled accounts should be managed in style/strategy consistent with the fund's stated objective and constraints. If assets are held in a commingled account, the Board will make its best efforts to utilize funds that are managed in strategies that are generally consistent with the investment policies adopted by the Board.
6. Derivative instruments will only be used in ways that reduce risk or transfer risk and not to increase risk and are consistent with the fund's investment objectives. They will not be used to add leverage to the fund. Counterparty risk arising from derivative transactions will be limited to credits rated "A" or better. Instruments used may include, but are not limited to, futures, options, swaps, and structured notes.
7. Each asset manager's portfolio should be fully invested at all times, although cash may be held briefly when a security is sold prior to deciding which new security should be purchased. In no case shall cash comprise more than ten (10) percent of the portfolio without prior written approval of the Board.
8. Not less than annually, the Board will review investment results, manager performance, asset allocations, and investment policies and objectives.

Kansas City, Missouri 64106

Re: 2018 Certification of Actuarial Valuation

Dear Members of the Board:

We certify that the information presented herein is accurate and shows fairly the actuarial position of the Jackson County, Missouri Revised Pension Plan.

In preparing our valuations and the schedules for the Comprehensive Annual Financial Report (CAFR), we relied on information (some oral and some written) supplied by Jackson County staff. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

Actuarial valuations to determine the funding requirements of the Plan are performed annually. The most recent Actuarial Valuation was done as of July 1, 2018.

The Plan's current funding objective is to determine annual employer contributions which, over time, will gradually increase in dollar amounts and gradually decrease as a percent of payroll, if all actuarial assumptions are met and the annually determined amount is contributed. The actuarially determined employer contribution has been determined to provide for (1) the normal cost developed as a level percentage of payroll, plus (2) a level dollar amortization of the unfunded actuarial liability over layered 20-year closed periods, plus (3) a provision for administrative expenses.

The following schedules shown in this Actuarial Section have been prepared using information within our July 1, 2018 actuarial valuation report.

- Summary of Actuarial Assumptions and Methods
- Schedule of Active Member Valuation Data
- Schedule of Retirees and Beneficiaries
- Short Term Solvency Test
- Analysis of Financial Experience
- Summary of Plan Provisions
- Schedule of Active Members by Attained Age and Service

We also provided information which appears in the Financial Section of the CAFR as follows:

- Change in Net Pension Liability
- Sensitivity of Net Pension Liability to Changes in Discount Rate
- Schedule of Changes in Net Pension Liability and Related Ratios
- Schedule of Employer Contributions

Any figures shown for years prior to 2016 were prepared by the prior actuary.

The actuarial assumptions have been approved by the Board of Trustees based upon our experience study covering plan experience during the period July 1, 2011 to June 30, 2016.

To the best of our knowledge, this report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board, including the use of assumptions and methods for funding purposes that comply with the Actuarial Standards of Practice. Furthermore, as credentialed actuaries we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys, and our firm does not provide any legal services or advice.

The nature of our relationship with the Jackson County, Missouri Revised Pension Plan is to provide actuarial services. Cheiron is independent from Jackson County and from the Board of Trustees and there is nothing in our relationship which would impair the objectivity of our work.

This letter was prepared exclusively for the Jackson County, Missouri Revised Pension Plan for the purpose described herein. This report is not intended to benefit any third party, and Cheiron assumes no duty or liability to any such party.

Sincerely,
Cheiron

Stephen T. McElhaney, FSA, FCA, MAAA, EA
Principal Consulting Actuary

Michael J. Noble, FSA, FCA, MAAA, EA

Revised Pension Plan
Summary of Actuarial Assumptions
June 30, 2018**

This section of the report presents the actuarial assumptions and methods used in the valuation, a summary of plan provisions, and participant data upon which the valuation of June 30, 2018, was based. The actuarial assumptions were selected by the Pension Plan Board of Trustees.

Most assumptions were revised in 2017 based on the results of the experience study conducted in 2017 for the period from July 1, 2011 to June 30, 2016.

Actuarial Assumptions

Valuation Date:	<u>July 1, 2018 and 2017</u>
Interest:	6.75% per annum for the regular valuation in determining the range of contributions and also purposes of calculating the value of vested benefits and accrued benefits under the ongoing plan approach (as required by the Financial Accounting Standards Board). (Adopted in 2017)
Amortization method:	20-year layered, level dollar (Adopted in 2017) (20-year closed amortization for 2013 COLA change)
Mortality:	
Active and Terminated Vested Participants:	RP 2014 Healthy Non-Annuitant Table adjusted back to 2006 using MP-2014, projected forward with MP-2016 on a generational basis. (Adopted in 2017)
Beneficiaries and Retirees:	RP-2014 Healthy Annuitant Table adjusted back to 2006 using MP-2014, multiplied by 1.2 for males and 1.0 for females, and projected forward with MP-2016 on a generational basis. (Adopted in 2017)
Disabled Members:	RP-2014 Disabled Mortality Table adjusted back to 2006 using MP-2014, projected forward with MP-2016 on a generational basis. (Adopted in 2017)

Adopted in 2009, revised in 2017

Inflation: 2.5%

Administrative Expenses: \$250,000 is added to the normal cost of the Plan for expected administrative expenses, which is based upon the actual administrative expenses paid during the prior plan year rounded to the nearest \$5,000 (Adopted 2017)

Cost of Living: 2.0%

Asset Valuation Method (Adopted 2015)

A smoothed fair value of assets is used for the valuation. This method recognizes the annual difference between actual and expected investment returns over five years.

Assets at fair value were used in the comparison of plan assets to the actuarial value of accrued and vested accrued benefits under the ongoing plan approach.

**Jackson County, Missouri
Revised Pension Plan
Summary of Actuarial Assumptions
June 30, 2018**

Actuarial Assumptions (continued)

Actuarial Cost Method (Adopted 1975)

Individual entry age

Service Cost

Service cost and the allocation of actuarial present values between service rendered before and after the valuation date were determined using an individual entry age actuarial cost method having the following characteristics:

- The annual service costs for each individual active member, payable from date of hire to date of retirement, are sufficient to accumulate the value of the member's benefit at the time of retirement.
- Each annual service cost is a constant percentage of the member's year-by-year projected covered pay.

Financing of Unfunded Actuarial Accrued Liability

The excess of accrued liabilities over the funding value of assets was amortized as a level percent of payroll over 15, 20, and 30 years. All three periods are recognized as reasonable.

**Jackson County, Missouri
Revised Pension Plan
Summary of Plan Provisions**

<u>Effective Date</u>	Originally effective April 1, 1967; as amended through June 1, 1981, as restated effective August 1, 1985, and as amended July 13, 1988; June 29, 1990; July 31, 1990; February 21, 1991; August 29, 1991; June 17, 1992; September 1, 1992; December 28, 1992; April 4, 1994; September 29, 1994; November 13, 1994; November 23, 1994; December 12, 1994; January 1, 1995; January 9, 1996; March 13, 1997; October 30, 1997; December 16, 1997; July 1, 1999; January 1, 2002; November 5, 2003; August 5, 2004; April 5, 2005; August 1, 2006; August 23, 2006; February 17, 2009; November 1, 2010; February 23, 2011; September 10, 2012; January 22, 2013; August 4, 2014; December 8, 2014; June 1, 2015; and January 25, 2016.
<u>Eligibility</u>	On January 1 with 12 months credited service.
<u>Employee</u>	For purposes of the plan, an employee is one who has been elected or appointed to a County office, or who is regularly employed full-time by the County or other participating employers. However, certain job classifications are not covered by the plan.
<u>Service and Credited Service</u>	Service is equal to years and months of continuous employment. Credited service is equal to Service, except that only $\frac{3}{4}$ of the years and months prior to January 1, 1967, are included in credited service. A vested member of the Plan may opt to purchase individual years of Military Service up to four (4) years of service, one year for each year of military service. Such option must be exercised or declared within twelve (12) months of vesting.
<u>Average Monthly Earnings</u>	The highest 36 consecutive month average of monthly earnings. Monthly earnings are defined as regular monthly cash compensation, including overtime, but excluding fees, commissions, expense reimbursements, and other forms of extra ordinary compensation.
<u>Accrued Benefit</u>	The benefit the employee has earned based on average monthly earnings and credited service to date.
<u>Normal Form</u>	The normal form of payment is a lifetime annuity with five years certain. For members terminating and retiring after July 31, 1990, benefits may be adjusted by up to 3.0% per year for cost-of-living changes.
<u>Normal Retirement Non-Elected</u>	Age 65 or age 55 where the participant's years of age and credited service total eighty years. The normal retirement benefit is 1.5% of the average monthly earnings for each year of credited service, but in no event less than fifty dollars.
<u>Normal Retirement Elected Officials</u>	Age 65 or age 55 where the participant's years of age and credited service total eighty years. Pension equals 4.167% of the average monthly earnings for each year of first twelve years of credited service plus 5% of average monthly earnings times years of credited service from year 12 to year 16. Employee contributes 4% of salary, for up to sixteen years of service.

**Jackson County, Missouri
Revised Pension Plan
Summary of Plan Provisions**

Summary of Plan Provisions (continued)

Late Retirement At actual retirement, the employee receives a monthly benefit based on credited service and average monthly earnings at the late retirement date.
